Alliance Outlook

Turning industry unity into multimodal cooperation

From the perspective of its consultancy role with MAFFA and membership of the Macau GBA Development Council, Alliance sees the federation as more than a platform for industry dialogue. It creates an opportunity to strengthen cooperation across transport modes, professional disciplines and regional boundaries.

Alliance advocates 3 priorities:

- **Closer air–sea–land integration:** Coordinate air cargo, maritime services, cross-border trucking and last-mile delivery to develop more efficient multimodal solutions.
- **Stronger Macau–Hengqin and GBA connectivity:** Encourage information sharing, operational coordination and exchanges on service standards among freight forwarders, warehouse operators, customs-clearance providers and transport companies.
- **Professional capability and compliance:** Support businesses, particularly SMEs, through training in dangerous goods transport, air cargo security, digital logistics and supply chain management.

Translating infrastructure into business opportunities

The Macau International Airport Hengqin upstream cargo terminal is expected to begin operations in 2027. Together with facilities such as the Hong Kong–Zhuhai–Macau Bridge Macau cross-border cargo transfer station, it offers new opportunities for regional logistics cooperation. The federation has also identified Macau–Hengqin integration and connections with Portuguese- and Spanish-speaking countries and Southeast Asia as development priorities.

Alliance believes the next step is to translate infrastructure connectivity into practical business partnerships, talent development and service innovation—supporting safer, more efficient and resilient GBA supply chains.

從行業聯合走向海陸空協同

從MAFFA顧問及澳門大灣區發展議會成員的角度，Alliance認為，總會成立的意義，不僅是建立更廣泛的業界交流平台，更在於為跨運輸模式、跨地域及跨專業合作創造條件。

Alliance倡議以三個方向推動協同發展：

- 深化海陸空銜接：加強航空貨運、海運服務、跨境公路運輸及末端配送的協調，推動更高效的多式聯運。
- 促進琴澳及大灣區合作：加強貨運代理、倉儲、通關及運輸服務之間的對接，推動資訊共享、流程協調及服務標準交流。
- 提升專業與合規能力：透過危險品運輸、航空貨運安全、數碼物流及供應鏈管理培訓，支持中小企業提升競爭力。

把基建機遇轉化為產業動能

澳門國際機場橫琴前置貨站預計於2027年投入營運；結合港珠澳大橋澳門口岸跨境貨物轉運站等設施，將為琴澳物流協作帶來新的發展條件。總會亦提出深化琴澳物流一體化，以及拓展內地與葡語、西語國家及東南亞市場聯繫的工作方向。

Alliance認為，業界應把握這一契機，將基建連通進一步轉化為企業合作、人才培育及服務創新，攜手建設更安全、高效及具韌性的大灣區物流供應鏈。

Alliance congratulates the federation and its inaugural leadership team, and welcomes dialogue with associations, logistics businesses and supply chain partners on professional training, dangerous goods compliance and regional collaboration.

Alliance謹向澳門物流業總會及第一屆領導架構致以祝賀，並歡迎各商協會、物流企業及供應鏈夥伴，就專業培訓、危險品合規及區域合作交流意見，共同開拓澳門物流新篇章。
